Dear Valued Residents and Business Owners:

This year we remember the tragic events that changed our lives twenty-five years ago on September 11th, 2001. Unfortunately, many are still affected by this attack on our country. We will never forget the sacrifices made on that day by first responders and everyday people.

As in recent years, we will continue to conduct our annual fundraiser via mail, PayPal, and Venmo. We hope that you can help us by donating so that our department can continue to provide firefighting services to our community.

The support that you have provided to our department years prior has allowed for continued training and purchasing of vital equipment needed to respond to emergencies. By donating to our fundraising efforts, our department can continue to provide the training and equipment needed to provide the quickest, most efficient response.

Interested in serving your community? We are ALWAYS looking for new volunteers to join our department and help us to keep our community safe. Training is free! Call 973-956-8644 or stop by any firehouse for more information.

Always be sure to check your smoke and carbon monoxide detectors! Not sure how old your detectors are? Give our department a call and we can assist you in determining whether your detectors need replacing. If either detector sounds, call 911 right away!

Considering the increased number of fires nationwide associated with the use of lithium-ion batteries, we encourage you to exercise caution using these products. Only buy products with safety certificates to ensure that safety standards are met. Charge these devices according to manufacturer instructions and only use the charging cords that came with the device. Unsure of how to safely use and maintain these types of devices? Reach out to us for guidance!

The members of the Totowa Fire Department thank you for your continued support. We look forward to seeing you at our Annual Totowa, West Paterson and Little Falls Fire Departments' Holiday Parade on November 28th!
